

# KOLBE TeamSuccess®

## *Leverage Collaborative Talents*

*All TeamSuccess participants complete Kolbe Indexes identifying their individual instinctive strengths.*

*Customized Kolbe Management Reports™ provide leaders with detailed diagnostic information and prescriptions for improving team performance.*

*Supplemental coaching materials help managers and employees sustain positive results.*

TeamSuccess is a program of full- or half-day seminars and consulting sessions designed to help managers build on employee strengths and improve overall team performance. Three separate tracks of the program can be customized to address the specific issues of any organization.

**Kolbe Discovery™ Seminar** – a half-day introduction to key Kolbe concepts including a complete inventory and analysis of a team’s unique set of instinctive strengths. Participants learn how to use their natural talents and collaborate with others to achieve performance goals.

**Kolbe Team Synergy™ Seminar** – an intensive, half-day follow-up to the Discovery Seminar designed to diagnose and resolve group productivity problems. Prescriptive information from Kolbe Index analysis helps team members improve communication, barter talents and organize their efforts to achieve synergy.

**Kolbe Productivity Consultation™** – a series of in-person, web-delivered or telephone consultations with senior leaders and supervisors to analyze specific issues and identify strengths-based solutions.
